Technical Skills

- **Languages:** Java, Dart, JavaScript, SQL, HTML5, CSS3,
  Mobile & Web Frameworks: Flutter, JavaFX, RESTful APIs
  Authentication & Backend: Firebase (Auth, Firestore, Storage)
  Frontend Tools: React.js ,JavaFX UI Toolkit
  Developer Tools: Git, Maven, Visual Studio Code, IntelliJ IDEA
  Platforms: Windows, Linux
  Soft Skills: Leadership, Problem-Solving, Collaboration, Communication

Education

Master of Computer Science   *Pune*

Vishwakarma College Of Arts Commerce and Science Pune   *June 2022 – June 2024*
- Final CGPA: 8.80

Bachelor of Computer Science   *Pune*

Vishwakarma College Of Arts Commerce and Science Pune   *June 2019 – June 2022*
- Final CGPA: 8.60

12th (HSC)   *Pune*
Prathibhatai Pawar Junior College   *Feb 2018 – Feb 2019*
- Final Percentage: 65%

Projects

LookSmart – AI Style Advisor App
- An AI-powered styling app that performs color analysis, body shape detection, hairstyle recommendations, and provides fashion, grooming & self-improvement suggestions using AI.
- Integrated OpenAI GPT API for dynamic and context-aware conversations.
- Built a virtual stylist chat, integrated Shopify e-commerce, and developed a clean Flutter UI with real-time AI assistance.

People Issue Reporting Platform
- Developed a cross-platform issue reporting app using Flutter (Android) and JavaFX (Desktop).
- Integrated Firebase Authentication and Cloud Firestore for secure user login and real-time issue tracking.
- Designed and consumed RESTful APIs for status tracking, report management, and updates.
- Focused on responsive UI/UX and form validation using Flutter widgets and Dart.

AI chat-Application
- Build an intelligent chatbot using Flutter for mobile and JavaFX for desktop platforms.
- Integrated OpenAI GPT API for dynamic and context-aware conversations.
- Maintained chat history using local and cloud storage.
- Emphasized clean, user-friendly design with smooth animations and error handling.

Internship

Intern at Incubators (Core2Web), Pune   *fab–2025 - Oct 2025*
- Worked on cross-platform application development using Flutter (Dart)
- Designed and developed mobile UIs using Flutter widgets, with proper state management and responsive layouts.
- Integrated Firebase Authentication and Firestore for secure login and real-time database operations.
- Collaborated on the backend using implementing CRUD operations, data validation, and error handling.
- Participated in team code reviews, Git-based version control, and Agile task planning.

Intern at Market Research Future , Pune   *May–2024 - Aug 2024*
- Developed and maintained web applications using React.js
- Implemented state management with Redux and optimized component-based architecture.
- Integrated RESTful APIs with front-end applications for dynamic data exchange.

Courses and Certifications

- Completed Certificate in AI Masterclass(Core2Web)
- Completed Certificate in Java (Core2Web).
- ReactJS Certification – Infosys Springboard

Achievement & awards

- Champion of the College Cricket Tournament, leading the team to victory.
- Participated in Hackathon 2024 at unstop platform.

Hobbies

- Playing Cricket
- Exploring emerging technologies through hands-on mini-projects and open-source contributions
- Online gaming
